Manual sample handling is not only tedious and time-consuming. It also introduces unwanted variables into your chromatography and mass spec.

Agilent can help you automate your GC and GC/MSD sample prep workflow, with improved repeatability and often with considerable cost savings. We can add precision and performance to your sample introduction, too.

**You'll find the answers in Agilent's FREE GC Automation Info Kit**

Download your GC Automation Info Kit—the latest Application Notes, brochures, technical articles, and more!
